

The Devonshire Spa

Situated in the most idyllic of locations, 'The Gateway to the Yorkshire Dales', The Devonshire Arms Hotel & Spa is one of the North's finest country house hotels. Privately owned by the Duke of Devonshire, the hotel and Spa are set in acres of rolling parkland at Bolton Abbey.

Simply staying within the tranquil, natural beauty of The Yorkshire Dales is therapy enough for some, yet who can blame many of our residential guests choosing to spoil themselves with a spa or beauty treatment too? The Spa itself is housed in an ancient barn, adjacent to the Devonshire Arms Hotel.

Modern facilities for day spa and residential guests include four generously-sized therapy

rooms, an indoor swimming pool, Jacuzzi, steam room, sauna, Rasul temple, manicure room, relaxation space & lounge, with views over the tennis courts. You will also find a separate gymnasium, with cardio, weights & resistance zones, ideal for body toning and fitness.

Pampering at The Devonshire Spa is a treat, using the deeply luxurious and world-renowned Temple Spa range, nourishing, results-driven spa products which blend British provenance and sophistication, influenced with Mediterranean inspired fragrances and a passion for the finer things in life.

Treatments include our Signature bespoke prescription facial, 'My Kinda Skin' (60

mins, £70) and the 'Totally Quenched and Drenched' rehydrating facial is very popular, especially after such a hot summer (75 mins, £105)

Not to leave out the gents, our 'Go Guy' male executive facial, is also gaining fans. Massages with a Mediterranean flavour such as 'Rocks of the Mediterranean' and 'Drift Away' can be booked individually or as a couple's massage experience, with there's a special range of treatments for mums-to-be too along with wraps, detoxifying treatments and classical beauty treatments including waxing and tinting. A choice of nail treatments by Jessica, complete a polished appearance by adding a final touch to your grooming.
